

PROENDURE COVER

Upgrade Features:

Premium design featuring authentic Sunbrella™ material that lasts twice as long as traditional vinyl.

- Improved backyard design integration with several styles of premium outdoor furniture.
- Higher quality material has more resistance to tearing and puncturing.
- Fade resistant and is treated for protection against harmful UV rays.
- Breathable and mildew resistant.

Easier care

- Sunbrella fabric features better stain resistance than traditional vinyl and debris/dirt are easier to remove
- Special fabric guard and cleaners available to reduce maintenance time and increase life of cover

Energy Efficient

- Inner core features 2lb. foam density and heat seal gasket to provide energy saving by minimizing heat and moisture loss.

Additional benefits

- Environmentally friendly, no wastewater from dying (material is a woven fabric made with a solution dyed acrylic meaning the color will not wash out because the colors are added to liquid acrylic mixture, becoming an inherent part of the fiber and ultimately the material)
- A three year warranty on Sunbrella encasement
- Color: Espresso with taupe stitching

We are providing the ProEndure premium cover as an upgrade for the following models:

- J-365: 6476-505T
- J-335: 6476-506T
- J-355: 6476-505T
- J-LX & J-LXL: 6476-512T
- J-345: 6476-506T

Test based on CEC test protocol for standby power consumption. Results measured in a controlled environment based on mid-2010 energy rates. Local and future energy rates and local conditions will alter these monthly costs of operation.

Spa Temperature 101° F / 38° C
Kilowatt Rate Per Hour \$0.10

SMARTSEAL™

Features:

- Ideal for cold weather climates by adding an extra layer of insulation to minimize operating costs.
- Factory installed option on J-400 and J-300 Collections.
- Achieves up to 20% reduction in energy usage
- Made from recycled blue jeans that are environmentally friendly.
- Protects from moisture, mold and reduces noise
